DOMINION INVESTOR SERVICES, INC.
(A Wholly Owned Subsidiary Dominion Financial Services, Inc.)

Notes to Financial Statements
December 31, 2018

Note 1-Nature of Business

Dominion Investor Services, Inc. (the Company) was formed on December 28, 1990 and is registered with the Financial Industry Regulatory Authority (FINRA). Its brokerage accounts are insured by the Securities Investors Protection Corporation (SIPC). The Company clears its securities transactions through Hilltop Securities, a member of the New York Stock Exchange.

Reporting Entity:

Effective January 1, 2001, the parent company, Dominion Financial Services, Inc. (DFS) elected under the Internal Revenue Code to be taxed as an S-Corporation. Under those provisions, DFS does not pay federal corporate income taxes on its income, rather its stockholders are liable for individual income tax on their proportionate share of DFS's taxable income. DFS has made an election with the Internal Revenue Service to treat the Company as a qualified Subchapter S Subsidiary. As a result, for federal tax law purposes, the Company's assets, liabilities, and items of income and deduction are treated as being owned by DFS. Only DFS is required to file a tax return and that return includes the Company's assets, liabilities, and items of income and deduction. These financial statements include only the accounts of Dominion Investor Services, Inc.

Note 2-Summary of Significant Accounting Policies

Basis of Accounting:

These financial statements are presented on the accrual basis of accounting in accordance with generally accepted accounting principles whereby revenues are recognized in the period earned and expenses when incurred.

Cash and Cash Equivalents:

For purposes of statements of cash flows, the Company considers all highly liquid investments, with an original maturity of three months or less, to be cash equivalents.

Management's Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual amounts could differ from those estimates.

Revenue Recognition:

Revenue includes commission, other, and interest income. The recognition and measurement of revenue is based on the assessment of individual agreements. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time.

Commission, Interest and Other Revenue:

Commission revenue is recognized as of the settlement date which is generally the second business day following the trade date. Hilltop pays on a trade date basis. This generally works out to be Settlement date with T+2 with the exception of mutual funds and some bonds. Dominion accrues direct business including variable annuities from the blotter when it can be verified that the revenue was received. Dominion does not accrue 12b-1 fees nor fixed indexed annuities. Other income and interest income are recognized on an accrual basis in accordance with GAAP.

DOMINION INVESTOR SERVICES, INC.
(A Wholly Owned Subsidiary Dominion Financial Services, Inc.)

Notes to Financial Statements

Income Taxes:

Effective January 1, 2001, DFS elected under the Internal Revenue Code to be taxed as an S-Corporation and also elected to treat the Company as a Qualified Subchapter S Subsidiary of DFS. Under those provisions, DFS does not pay federal corporate income taxes on its income. As a Qualified Subchapter S Subsidiary of DFS, the Company's income is reported on DFS's tax return and its stockholders are liable for individual income tax on their proportionate share of DFS's taxable income. These financial statements include only the accounts of Dominion Investor Services, Inc. There are also no uncertain tax positions that are required to be disclosed in accordance with Financial Accounting Standards Board ASC 740-10-50-14.

The Company is subject to Texas franchise tax, which is based on taxable margin, rather than being based on federal taxable income. For the year ended December 31, 2018 the Company recorded \$3,358 in Texas margin tax expense.

Date of Management's Review:

Subsequent events were evaluated through the date of the report of independent registered public accounting firm which is the date the financial statements were available to be issued. In January 2019, the company declared and paid a dividend of \$55,000 to parent company.

Recent Accounting Pronouncements:

In May 2014, the financial Accounting Standards Board ("FASB") issued Accounting Standards Codification 606, Revenue from Contracts with Customers ("ASC 606"). The new accounting standard, along with its related amendments, replaces the current rules-based U.S. GAAP governing revenue recognition with a principles-based approach. The Company adopted the new standard on January 1, 2018 using the modified retrospective approach, which requires the Company to apply the new revenue standard to (i) all new revenue contracts entered into after January 1, 2018 and (ii) all existing revenue contracts as of January 1, 2018 through a cumulative adjustment to equity. In accordance with this approach, our revenues for periods prior to January 1, 2018 will not be revised.

The core principle in the new guidance is that a company should recognize revenue in a manner that fairly depicts the transfer of goods or services to customers in amounts that reflect the consideration the company expects to receive for those goods or services. In order to apply this core principle, companies will apply the following five steps in determining the amount of revenues to recognize: (i) identify the contract; (ii) identify the performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction prices to the performance obligations in the contract; and (v) recognize revenue when (or as) the performance obligation is satisfied. Each of these steps involves management's judgment and an analysis of the material terms and conditions of the contract.

We do not anticipate that there will be material differences in the amount or timing of revenues recognized following the new standard's adoption date. Although total revenues may not be materially impacted by the new guidance, we do anticipate significant changes to our disclosures based on the additional requirements prescribed by ASC 606. These new disclosures include information regarding the significant judgments

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). This standard requires lessees to recognize a lease liability and a lease asset for all leases, including operating leases, with a term greater than 12 months on its statement of financial position. The standard also expands the required quantitative and qualitative disclosures surrounding leases. This standard is effective for annual periods beginning after December 15, 2019. Early adoption is permitted. This standard will be applied using a modified retrospective transition approach for leases existing at, or entered after, the beginning of the earliest comparative period presented in the financial statements. Management is currently evaluating the effect of these provisions on the Company's financial position and results of operations.

The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

- 2) Compared the Total Revenue amount reported on the Annual Audited Report Form X-17A-5 Part III for the year ended December 31, 2018 with the Total Revenue amount reported in Form SIPC-7 for the year ended December 31, 2018, noting no differences;
- 3) Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers, noting no differences;
- 4) Recalculated the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments, noting no differences; and
- 5) Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed, noting no differences.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the applicable instructions of the Form SIPC-7. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
